

24/7 NurseCare

Caring is at the heart of what we do

CareNet's NurseCare service provides your members with 24-hour access to experienced Care Advisors who are all Registered Nurses.

24 hours a day, 365 days a year, your member will have access to Care Advisors to help them with symptoms or answer a health related question. Just by knowing we are here for support reduces stress and anxiety and gives your members confidence in their healthcare decisions.

No matter what the situation – from simple things like a twisted ankle, to a potentially life threatening urgent health concern – CareNet's Care Advisors help your population:

- Gain convenient access to quality care
- Become better-informed healthcare consumers
- Understand their specific diagnosis and condition(s)
- Gain confidence when speaking to providers during office visits
- Become educated on self-care for non-urgent injuries and illnesses
- Improve their knowledge of drugs and medications
- Obtain referrals to providers, facilities, and support groups
- Live better with healthy lifestyle tips
- Manage chronic illnesses and diseases daily
- Increase member participation in care management programs

Our Care Advisors have an average of 18 years of clinical experience. They use advanced technology software containing evidence-based industry standard guidelines to assist individuals in making the right choices involving health issues or concerns.
